Sony has revealed the pre-order bonuses for [Resistance 3](#) today through their [PlayStation Blog](#). They are specific to the retailers. The details offered commented on Bonuses for Gamestop, Walmart and Amazon.

GameStop gets a replica Chimeran-teeth necklace, similar to the one Joseph Capelli wears during Resistance 3. You'll also get a multiplayer booster, letting you start the multiplayer mode at level 5, and all the character customization options that come with it.

If you pre-order the game through **Wal-Mart** you will be getting 5 custom name titles including "Sentinel," which are an elite group of soldiers in Resistance.

Pre-ordering through **Amazon** will get users an Air Fuel Grenade useful in tight spaces that adheres to almost any surface and throws flammable vapor. This grenade will be available in the single-player mode.

Best Buy pre-order buyers will get a Nathan Hale multiplayer skin and special taunt. Finally, Canadians (and smaller US retailers) get a Black Ops troop multiplayer skin that will let the player return as one of the most mysterious soldiers from R:FOM and R2.

Resistance 3, the latest installment from Insomniac Games will be available in North America on September 6th, 2011. Although Sony and Insomniac may be planning for a collection edition, we have no information about it so far, so for now this is the latest information we have about bonuses that will be coming with the game.
